Introduction xv

Chapter 1 Developing Your First Game 1

Learning the Basics of Object-Oriented Programming 2
Overview of the .NET Framework 5
Class Is in Session 6
Designing the Die Roller Form 12
Coding the Die Roller 17
Adding Your Own Property 19
Setting Up Events, or Making the Program Do Something 21
Setting Up Methods 24
Rolling the Die 24
Where to Draw the Die? 32
Putting the Die in Its Place 37
Moving the Die 38
Tying the Functionality Together 40
The End? 42

Chapter 2 Writing Your First Game, Again 43

Understanding the Benefits of Rewriting 44
Creating the Die Class 45
Putting the Die Class to Work 60
Version 3: Creating the DicePanel Class 64
Testing the Classes 81
Adding the DicePanel Class to the Toolbox 83
Now That's Reusable Stuff! 86

Chapter 3 Understanding Object-Oriented Programming from the Start 89

Starting the NineTiles Project 90
Looking Back on the Design 118

Chapter 4 More OOPing Around *123*

Setting Up the Graphics *124*
Creating the Base Tile Class *125*
Developing Brain Drain Concentration *139*
Developing DeducTile Reasoning *146*
Developing Lose Your Mind *163*
Summary *176*

Chapter 5 Understanding Polymorphism *177*

Seeing Polymorphism in Action *178*
Understanding Life and Something Like It *179*
Developing Conway's Game of Life *187*
Developing Rainbow Life *194*
Developing the Voting Game *199*
Building the Main Cellular Automaton Program *203*
Expanding the Cellular Automaton Games *207*

Chapter 6 Using Polymorphism via Interfaces *209*

Seeing an Example Interface in Action *210*
Using More Complex Interfaces *215*
Finally, Seeing the Polymorphism in Action *243*
Additional Interface Topics *245*

Chapter 7 Creating Multiplayer Games *247*

Understanding Network Communication *247*
Creating the Player Class and Subclasses *248*
Developing the ReversiPiece Class *256*
Developing the ReversiGame Class *257*
Setting Up the Game *262*
Sending Game Data *272*
Receiving Game Data *274*
Debugging Network Code *275*
Moving Forward *276*

Chapter 8 Using DirectX *279*

Installing DirectX 9 ..... *280*
Understanding DirectDraw Basics *280*
Building an Arcade Game *289*
Summary *318*

Chapter 9 Learning Other Object-Oriented Programming Topics *319*

Understanding Structured Exception Handling *319*
Understanding Garbage Collection *323*
Understanding Object Serialization *328*
Understanding Threading *332*

Appendix A The Basics of Visual Basic *341*

Getting Started with Basic Programming *342*
Looking at an Example Project *346*

Appendix B Using POV-RAY and Moray *347*

Introducing Persistence of Vision *347*
Creating the Ray-Traced Die *348*
Summary *355*

Appendix C Using the BMPStitch Utility *357*

Using BMPStitch *358*
Using the BMPStitch Code *360*
Summary *366*

Index *367*
